Aberdeen
Scotland, UK
1990

The 1990 meeting was organized by Bob Logie and held in Aberdeen. It was formally entitled "Third European Workshop on Imagery and Cognition" (TEWIC). Thus, EWIC had become a recurrent scientific event.

Group photo of the Third European Workshop on Imagery and Cognition (TEWIC) in Aberdeen.

The keynote speakers included Steve Kosslyn (Harvard), Lynn Cooper (Columbia), Dan Reisberg (Reed College), and John Richardson (Brunel). The proceedings were published within the next year, after an unusually rapid editing and publishing process!

Many thanks to Bob for organizing the EWIC social dinner in the exceptional setting of Castle Fraser, a building that dates back to 1575, one of the grandest "Castles of Mar".
