The Ninth EWIC was held at the University of Pavia in its Piazza Leonardo da Vinci building.

The Department of Psychology at Piazza Botta.

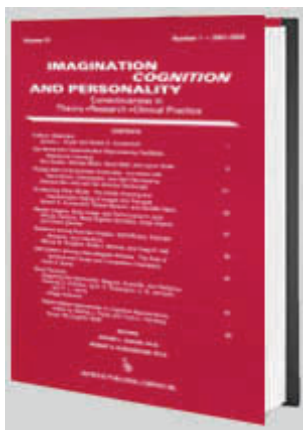

Tomaso Vecchi was Master of Ceremonies.

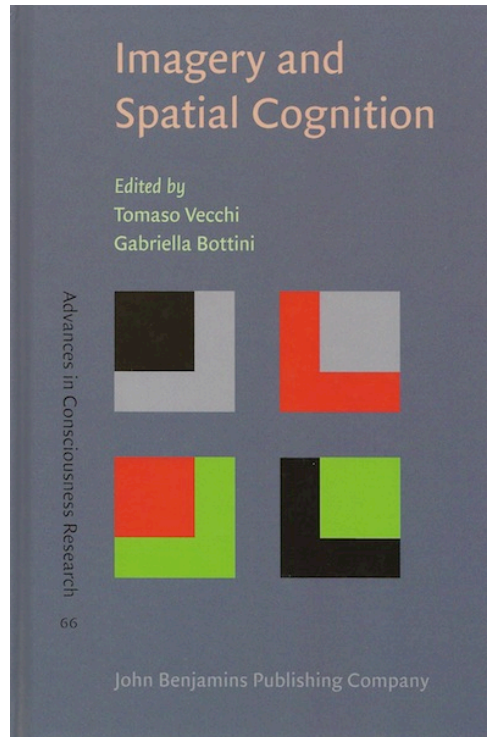

The keynote speakers were Timothy A. Salthouse (Virginia), Alain Berthoz (Paris), and Johannes Engelkamp (Saarbrücken). This photograph shows Johannes Engelkamp giving his presentation.

Some of the papers presented at the workshop were published as a special section of the 2003-2004 volume of the journal *Imagination, Cognition and Personality*. The journal editor is Robert Kunzendorf (U Mass), a regular attendee of EWIC events.

Two years later, Tomaso Vecchi and Gabriella Bottini edited a splendid volume for John Benjamins in the series "Advances in Consciousness Research", to which several regular participants of EWIC contributed.
